

Driving Directions to the Pig Science Centre

Once on 60 Avenue, enter onto University of Alberta - Edmonton Research Station property by going straight through the chain link gates. Continue to drive until the "T" intersection. Turn left and the Pig Science Centre is the third drive way on the right hand side. It is attached to the Swine Research & Technology Centre. The door to the Pig Science Centre is the one directly below its sign on the building.

* **Note to driver** - 115 Street has quite a few speed bumps; therefore, it is probably preferable to get to 60 Avenue from 113 Street - right beside the School for the Deaf.
