R-R	Ration Used On-Farm Record	Mandatory
R-R1	Rations Used On-Farm Record (for Quebec)	

RATIONALE

a. The Canadian Feed Ingredients Table (CFIT) is incorporated by reference into the   and replaced the Schedules IV and V as the document listing single ingredient feeds (SIFs) approved for livestock in Canada.

b. By adhering to the CFIT, the Compendium of Non-Feed Products List *(if applicable)* and the List of Registered Livestock Feed in Canada *(if applicable)* manufacturers and suppliers ensure that their products meet the standards set by the Canadian Food Inspection Agency (CFIA), thereby facilitating the import, sale, and manufacture of feed ingredients in Canada.

c. The Canadian Feed Ingredients Table (CFIT) helps maintain the safety and efficacy of feed ingredients used in animal nutrition, protecting both animal health and the food supply chain.

GUIDANCE

a. Incoming feed and feed ingredient(s) received from a Commercial Feed Facility registered with CFIA comply with the Feeds regulations.

b. All feed and feed ingredient(s) used on-farm must respect the Feed Regulations in accordance with the Canadian Feed Ingredient Table (CFIT). If the feed and/or feed ingredient(s) is not found under the CFIT, verify if the feed is listed under the Compendium of Non-Feed Products List (if applicable), and/or the List of Registered Livestock Feed in Canada (if applicable).

    Link to List of Registered Livestock Feeds in Canada

c. On-Farm Feed Mill(s) further manufacturing feed should respect the Feeds Regulations and Health of Animals Regulations.

d. It is recommended that producers choose a feed supplier that follows a feed quality assurance program. A HACCP or ISO quality program for feed and feed ingredients includes measures to control contamination by hazards such as drug residue, chemical products, pathogens, mycotoxins and animal feces. A feed quality assurance program also provides feed mill personnel and truckers with training to prevent this type of cross-contamination.

e. **Feed Importation**
    i. **Single Ingredient Feed (SIF):** To import a single feed ingredient (SIF) it must be listed on the CFIT Part #1 and respect the description of the CFIT. If the SIF is listed on the CFIT Part #2, a registration number from CFIA is required before it can be used.
    ii. **Mixed Feeds:** If you're importing mixed feeds, the feed must be registered by CFIA before it can be imported. The feed must meet safety standards and be authorized for use in Canada before it can be imported.

(?) AUDIT QUESTIONS

Q#	Audit Questions and Interpretations	Verification			
		Compliant	NC-Minor	NC-Major	N/A
Q3.3.1	Verify that the acknowledgement on the Rations Used On-Farm Record has been accepted by the Site Manager, confirming that all incoming feed and feed ingredients respect the Feeds Regulations.	**Full and Partial Validation:** ❯ R-R: Ration Used On-Farm Record ❯ Interview			
	Do all incoming feed and feed ingredients used on-farm respect the Feeds Regulations in accordance with the Canadian Feed Ingredient Table (CFIT)?	☐	◻	☐	◻

N/A = not applicable

- -

COMPLIANT

> The Record R-R is available and complete, and the Site Manager has accepted the acknowledgement.

MINOR NON-COMPLIANCE – Not applicable

MAJOR NON-COMPLIANCE

> The Record R-R is not available, and the Site Manager has not accepted the acknowledgement.

🖐

> If the Record R-R – Ration Used On-Farm Record is not available or the acknowledgement not accepted by the Site Manager, the Record R-R, must be completed within the corrective action timeline.
